Highland Plantation Residents & Property Owners: June 12, 2025

Greetings,

The State of Maine requires all municipalities, including plantations, to maintain property sales pricing within a specified percentage of assessed value. Highland Plantation is currently below the required percentage range due to outdated property valuations. Therefore, the Plantation Assessors will conduct a complete revaluation of all Highland Plantation properties.

In the upcoming weeks, The Plantation Assessors will conduct site visits to revaluate each property to establish current market values and ensure compliance with state requirements.

We will not need to enter any buildings on your property but will measure all buildings and waterfront footage as needed. Site visits will occur **Thursday June 19th** , **Friday June 20th**, **Saturday June 21st** and **Sunday June 22nd** , 2025, until complete. You do not need to be home.

If you have circumstances that require you to schedule a specific time for this visit, contact the assessors via email, at ***assessors@highlandplt.org*** for the fastest response, or leave a message with the Highland Plantation Clerk, Dawn Davis at **207-628-4247**, and one of us will return your call to work out an appointment to be scheduled before June 30th .

If you have questions, reach out to us; we'll help as best we can.

Thank you for your patience during this process.

Respectfully,

Highland Plantation Assessors
Daniel Howard, Lois Bousquet , Raymond Dionne
